BRIDGE INN
AT
RATHO

Fabulous fresh food...

A very warm welcome to the Bridge Inn.

We aim to serve food that is as fresh as possible and often the vegetables you are eating today will have been picked this morning. We want to serve you food that has been produced with care and love and we are confident that you will taste the difference.

About 300 yards along the Canal towpath from the Bridge Inn is our walled garden. The Bridge Inn must be one of the only pub restaurants in Scotland to employ a full-time gardener - David - who works closely with us to produce fresh produce all-year round. We have a twelve month planting, growing and picking program, designed to put the freshest vegetables on your plate.

We have our own herd of Gloucester Old Spot pigs who spend their lives happily grazing in the outdoors. From them we produce our own delicious pork, sausages and crackling. The pigs live in the open air just behind the walled garden - if you take a walk along the towpath you might be able to see them in the woods.

For those who have joined us for breakfast you will know that our flock of free-range chickens and ducks produce fresh eggs which are laid one day and eaten the following morning.

Throughout the shooting season, on the menu, we feature freshly-shot local game: pheasant, partridge, and rabbit.

Scotland is blessed with some delicious local produce and we aim to serve this to you wherever possible. We also like to produce and eat food which is better for you and better for the environment - we think it tastes better too.

Thank you for joining us today. If you have any comments or questions about any of our produce, or any aspect of our service, please speak to any member of staff, or fill out one of the comment cards and we will respond personally.

*Jackie, Ben,
Graham & Rachel*
